### Education

PhD, Boston College, Organic Chemistry  
BS, The State University of New York at  
Binghamton, Chemistry

Heike Simone Radeke is an experienced patent agent in the Intellectual Property practice in Katten's Charlotte office. With more than 15 years working in the pharmaceutical industry as a medical chemist and with a technical background in medicinal chemistry, small molecule drug design, synthetic organic chemistry and drug development, Heike has the experience and knowledge to solve clients' patent-related matters in the life science space.

### Inventor and writer in scientific journals

Before joining Katten, Heike spent several years working as a technology specialist at Mintz Levin and as a patent agent at Myers Bigel and Womble Bond Dickinson. She has been published numerous times in scientific journals and is a named co-inventor on several pharmaceutical patents and patent applications.
